WHY SHOULD YOUR PROJECT RECEIVE AN AWARD? *

In bullet format, list up to five special, innovative, and/or distinguishing reasons why the project should receive an award. Describe each reason very briefly on one line.

Consider the Evaluation Criteria in the Instructions. You will have the opportunity to expand on your answers on another page.

Legacy Award

The Legacy Award goes to a development project or programme that:

• Has established new concepts or standards that others have emulated;
• Is of national or international renown;
• Has been complete for a minimum of 25 years; and
• Meets all relevant eligibility requirements.

The Legacy Award is not conceived primarily for historic preservation projects, although such projects may win the award. Single-building projects may be submitted, but projects that aspire to long-term placemaking and that aim to benefit the entirety of the local community are ideally suited.

The submitter must designate the project or programme as a Legacy Award candidate in the submission form for it to receive this special consideration. By submitting the entry as a Legacy Award candidate, the jury will only evaluate it for this award and not as part of the overall Asia Pacific Awards for Excellence. Please evaluate carefully whether the project is best suited for this distinction.

Please visit https://americas.uli.org/wp-content/uploads/ULI-Documents/ULI-GAE-Heritage-Award-Winners.pdf to review a list of previous winners of the Legacy Award (known there as the "Heritage Award") in the Global Awards for Excellence Programme.

The jury only designates the Legacy Award with a unanimous vote.

If you wish to designate the project as a candidate for the Legacy Award, please check the "Yes" box below.

Percentage complete % *

Projects must be substantially complete, and Programmes must be significantly implemented, to be eligible for an award.

New Page: MARKET ACCEPTANCE AND FINANCIALS

The jury will evaluate entries on the extent to which they have achieved broad market acceptance and financial success. An understanding of the project's financial performance is therefore a key component for the jury to consider. Projects are likelier to advance to the finalist stage if the jury understands the project to be financially stable or viable. Public or nonprofit projects should demonstrate a reasonable use of financial resources and indicate how they support broader goals or efforts.

Please note that projects that are newly completed (unless created for public use, such as parks) are unlikely to be considered to have reached a sufficient level of market acceptance to win an Award. For such projects, we advise applicants to wait until their project has become stabilised. As a general rule, commercial projects that have been operational for less than 1 year are unlikely to win an Award for this reason.

The submission may also include additional financial information, such as pro formas, accounting statements, etc. If relevant, identify anchor/key tenants.

Projects that are unwilling to disclose financial information to ULI and the jury cannot advance to the winners' stage.

Market acceptance *

In the space provided below, describe how your entry has achieved market acceptance.

The project owner or developer, designated public official, or a representative responsible for the project, signs this digital agreement by checking the box below. The submitter may check the box below to agree to the terms on behalf of the person named under "Authorisation Contact Information."

By doing so, the submitter attests that the Authorisation Contact is aware of this submission and the Authorisation Contact attests that:

• Using accepted accounting standards, this project is anticipated to meet expectations for return on investor capital, when applicable;
• There are no pending or impending concerns with this project's financial condition, debt, equity, or public agency subsidy;
• ULI may use and reproduce the information on this application and any supporting materials (including images and narratives) provided unless noted otherwise; and
• He/She has full power and authority to provide this information and to grant these rights and permissions.

Submission Authorisation *

By checking the box below, I agree to the authorisation terms:

Yes, I authorise this submission to the ULI Asia Pacific Awards for Excellence
New Page: IMAGES AND ATTACHMENTS *

The projects and developments submitted should demonstrate an innovative approach to delivering best practice in real estate and urban development and provide an inside look at the ideas and strategies used to develop an exemplary project. We encourage submitters to think of these submission materials as the first step to creating a compelling case study of the project.

In addition to the completed submission form, entrants must submit one PowerPoint presentation in A4 landscape format at 300 pixels per inch or better, and a maximum 20 slides.

Please submit the PowerPoint presentation in .ppt format (ie, NOT as a .pdf file).

If text is used on the slides, the font should not be smaller than 12pt. However, most descriptive text should be included on the submission form, with text on slides kept to a minimum.

Slides should include:

- Project Location map
- Project Site Plan
- Project within context of its surroundings
- A development timeline
- Relevant plans and other support drawings or diagrammatic/conceptual images that support the project key facts or story
- Selected imagery of the final built and operating development

Slides should NOT include:

- Borders, logos, numbers, or other collage elements
- Renderings, which may disqualify the entry. The focus should be on the images of the built development.
The jury will use the submitted images for a first assessment of the overall visual impression of the project. These images are critically important to sustain the application narrative and often serve to drive the conversation as the jury meets and evaluates entries. In particular:

- In general, choose images that demonstrate why the project should win an award and how it embodies ULI values.
- Do not overuse graphics. Between two and four images per slide is ideal.
- Use high-resolution graphics that can be displayed on a large presentation screen without pixilation.
- **Show people in your images.** The jury wants to see the project in its real world context. It also wants to see that it has vitality and is widely used by the public. Empty buildings or spaces rarely justify an award.
- Images should show how the project integrates with its surroundings.
- If the submission involves a building, images of both the interior and exterior should be included.
- For mixed-use developments, images should show how the various parts of the projects are integrated.
- In general, avoid using architectural drawings. These rarely add value to the jury analysis.

We strongly recommend naming the PowerPoint presentation using the following protocol: [project location]_[abbreviated project name]:

Example: China_Dongfeng Hotel

**By submitting this application, you agree that ULI may use or reproduce any supporting information provided (including images), unless noted otherwise.** The submitter attests that she/he has full power and authority to grant these rights and permissions.
Upload Powerpoint Presentation

Please upload your .ppt file in A4 landscape format at 300 pixels per inch or better. Approximately 20 slides is an ideal length. Again, do NOT convert your powerpoint to .pdf format as this is not suitable for use in jury meetings.

Please see the Submission Guidelines for further information on creating presentations.

[File Upload]

All applicants must upload a minimum of six of the most prominent images contained in the powerpoint as standalone, high-resolution, graphics. These should be have minimum dimensions of 8.5 inches x 11 inches or A4 at 300 pixels per inch or better.

They may be in the following formats: jpeg (preferred), png, or tiff. Do not include any border, logo, number, or other collage elements. Do not include renderings, although one or two diagrammatic/conceptual images might be relevant depending on the project. This will ensure ULI has ready access to usable images of winning projects that can be used for editorial and Awards marketing purposes.

You may also submit up to six files with relevant information, such as detailed financials, descriptive literature, news articles, blog posts, etc.

This additional information typically is only of significant value to applications that advance through the initial assessment. The initial assessment tends to focus on the primary application material.

Particularly useful are materials that can offer an objective, third-party perspective on your project's character and impact.

Entry Fee *

An entry fee must accompany each submission. Fees are:

Public Sector/NGO US $320

Please note that the entry fee applies to the company or organisation submitting the application, not the type of project. For instance, a private sector company submitting a public sector project pays the private sector fee. Select your applicable fee below.

Public Sector/NGO: US$320
Private Sector: US$750

Once you have submitted your application, you will receive an invoice that includes payment instructions (which are also set out below and included in your confirmation email). You will be able to pay your entry fee by credit card, cheque, or bank transfer.

Follow the instructions depending on whether you want to pay by bank transfer or cheque, or by credit card. Submissions are not filed unless and until the "Checkout" button has been clicked.

Once the application has been submitted, you will receive an email notification together with an invoice.

First Jury Meeting

Each juror will be allocated a group of 4-5 submissions to review in advance of the first jury meeting. During this meeting, each juror will present to the rest of the jury his or her group of submissions for debate, evaluation, and qualification. This process creates an initial set of projects subject to a second round of evaluation. Finalists are then chosen from this second round. ULI will notify finalists and non-finalists shortly after this meeting.

Finalist Site Visits

If the jury selects your project as a finalist, during the following months at least one juror will visit each finalist for a closer evaluation, where they meet with those responsible for the success of the project or programme. The goal is to gather a detailed understanding of all aspects of the project or programme. If circumstances prevent a site visit, ULI will arrange an online conference call so that the delegated jurors can hold the same discussions virtually.

Second Jury Meeting

The jury convenes in a second and final meeting where they review each project again. The member(s) of the jury who visited each project starts the discussion with a brief presentation to explain the additional insight they obtained during their visit. After a day of deliberations, the jury selects the ULI Asia Pacific Awards for Excellence winners. ULI will notify winners and non-winners of their status shortly after this meeting.

ULI will announce Awards winners during the ULI Asia Pacific Summit in Singapore from 29 May - 1 June 2023.

If at any point you have questions or comments please contact: asiapacificawards@uli.org

Once submitted, this form can be accessed to download for your records through your ULI profile.

Thank you for your participation in the ULI Asia Pacific Awards for Excellence!
